“极度哑光”——几乎于“0”的光泽度

没有一丝光泽的干扰，展现最真实、最纯粹的色彩

为了避免可能出现的反射造成颜色差异，复合板必须按照保护膜上箭头所示相同方向进行安装。不同批次生产的复合板可能存在色彩差异，因此建议对每个工程所需的板材进行一次性订货以保证色调完全一致。

To avoid possible reflection difference, it is recommended to install the panels in the same direction as marked on the protective peel-off-foil.

Color variations may occur between panels originating from different production batches. To ensure color consistency, the total requirement for a project must be placed in one order.
